Nursery Stock Warrantee - Planted

Term: One year from date of planting.

Conditions:

- Nursery stock must be transported and installed by Elwood Property Services Limited/Clearview Nursery Ltd.
- Warrantee replacement of nursery stock that has died within 1 year of planting does not include delivery, labour and/or machinery costs incurred in installing the replacement tree.
- No further warrantee will be given on replacement nursery stock.
- Warrantee replacement planting will be completed at the end of the warrantee period, although verification of dead material will be acknowledged beforehand.
- Outstanding accounts must be paid in full to validate Warrantee.

Exclusions: *Our Warrantee does not cover the following:*

- Rodent or animal damage
- Severe weather conditions:
 - drought (incl. lack of adequate watering by client)
 - ice or snow damage (incl. salt damage and winter kill)
 - wind, storm or flood damage
- Mechanical damage (weed eaters, lawn mowers, etc.)
- Disease or insect damage
- Over fertilizing/root burn

Recommendations: Protection from winter kill and/or die back by wrapping in burlap is additional to planting costs and is recommended for some species (especially evergreens) for the first winter, especially if planted in autumn.

Adequate water is essential to the survival and establishment of a transplanted tree. We recommend weekly watering by slow hose trickle to maintain a moist root system. Soil types and species will determine frequency and quantity of water requirement. If the client is not able to provide adequate water, we can provide a watering service, which consists of our water truck and driver. The fee for this service is \$90.00/hr. with a minimum fee of \$270.00 (3 hrs). If in doubt, please contact a staff member at the phone number provided.
